6.

540 bytes of content are returned to my browser.

7.

There are a lot of headers that are not displayed in the packet listing window but can be found by searching through the raw packet data, including Last-Modified, Connection, and ETag.

13.

According to the packet listing window, the packet that contains the status code and phrase associated with the response to the HTTP GET request is numbered 3409.

18.

The server's response to the first HTTP GET request is status code 401 and phrase 'Unauthorized'.

19.

My browser's second HTTP GET request includes the new field 'Authorization'.
